Southern ZEN

RIVERVIEW HOME & HAVEN

Nestled amongst the hardwoods of one of North Atlanta's posh Buckhead neighborhoods is this unique, private, gated estate home, designed to impress. Greg and Suzy Greenfield appointed this spacious family home to raise their boys, entertain guests and embrace their love of art, music, food and wine. This is a sanctuary for a family where a sense of peaceful privacy prevails. With expansive rooms, high cathedral ceilings, large picture windows, five impressive fireplaces, antique heart of pine floors, massive crown moldings and repeating architectural stone archways, it is resplendent in interesting spaces which flow seamlessly from one to another. The home is stunning and welcoming, with an informal, inviting ambience that makes you want to come in and relax. From every room and through every window the view of the meticulously well conceived landscaping provides views that are rare and just simply breathtaking.

THE PROPERTY

Set on three and a half lush acres, the approach to the Greenfield home is a gated driveway which makes you stop and catch your breath as it winds and descends into a heavily wooded and gorgeously landscaped valley, then up again to the circular drive that presents the front elevation of the home, featuring a dramatic arched stone porte cochère. On the side of the house is a four-car garage and parking area that beautifully accommodates guest parking. On the west perimeter of the property runs a lovely babbling brook – a tributary to the Chattahoochee River that is clearly visible on the property during the winter months.

SUZY AND GREG GREENFIELD ENJOY A FORTUNATE LIFESTYLE, INCLUDING TRAVEL TO THEIR SEASONAL HOME IN VANCOUVER. THEIR PLANS TO MOVE TO A CUSTOM-DESIGNED HIGH-RISE BUCKHEAD CONDOMINIUM ARE PART OF AN EXCITING NEW ADVENTURE FOR THESE EMPTY-NESTERS WHO ARE LOOKING FORWARD TO THE ULTIMATE URBAN CHANGE OF LIFESTYLE AS THEY DOWNSIZE UP! FRENCH BULLDOGS, BRINDLEY AND LOLA, THEIR CONSTANT COMPANIONS, ARE CERTAIN TO BE THE ENVY OF ATLANTA'S DOGGIE SOCIETY IN THEIR NEW DIGS.

Outdoor Oasis

A covered slate deck with granite barbecue island of epic scale opens to the visual grandeur of the pool and spa. At the far end, a massive stone fountain and fire pit with its own patio anchors this premier hardscape. In the sunny green lawn to the left sits the artful guardian of the property: an enormous bronze sculpture of a man in repose, who appears to reign over the pristine landscape as perhaps the steward of the estate. The wonderful piece, named "Asaf," was created by international artist Boaz Vaadia.

PHOTOGRAPHY BY KEITH ROCKE

The rear elevation of the Greenfield home provides an entertainment haven, complete with expansive lawn, pool, jacuzzi and waterfall.

The long and heavily wooded driveway provides passage to this home, surrounded by 3.5 acres of lush landscaping for privacy at its best.

THE HOME

Got a big family or lots of guests? With five bedrooms, six full baths and four half baths, let them come and enjoy! The design of the home easily transitions from hosting large elegant parties to intimate gatherings. The state-of-the-art whole house entertainment system and the magnificent exterior landscape lighting enhance this lush property.

LOCATION, LOCATION!

This remarkable residential property is just 25 minutes from Hartsfield Airport and less than 15 minutes to the most desirable center of the Buckhead community's retail, restaurant and business district. Achieving such a unique blend of privacy and accessibility to the city's upscale infrastructure is one of the most coveted aspects of this amazing home.

SPECTACULAR SPACES & AWESOME AMENITIES

The delight is in the details! Incredible scale and perfect flow combine to create formal and casual areas in this entertainer's dream home. Exquisite finishes abound throughout.

The open kitchen features a center prep island with bar seating, but this chef's quality kitchen is ready for large-scale entertaining with three Bosch dishwashers, Subzero refrigerator, wine cooler, Thermador oven and a six-burner cook top/griddle and two warming drawers.

Located on the main level are a fireside keeping room with juliet balcony, formal dining room, formal living room, mahogany paneled library, and a spacious master suite. A centrally located mahogany paneled elevator serves all levels. Four generous upper level bedroom suites each have private baths and share a common loft style media space.

Suzy's "artist studio" is sequestered from the main flow of the home in a massive light-filled open space located over the four-car garage. Accessed through its own staircase, it is here that she spends her free time creating beautiful pieces of hand-fired pottery, including tiles that will appoint the Greenfield's contemporary new Buckhead condominium.

UNUSUAL OFFERINGS

In addition to ultimate upscale features including sophisticated scene and outdoor lighting, security and audio-visual systems, and top of the line appliances, many of the primary antiques and perfectly scaled furnishings that appoint this lovely home may be included with the purchase. Greg and Suzy also mused that their two perfectly trained and well-behaved Siamese cats are quite at home and may prefer to stay in their grand estate!

OFFERED BY BETSY AKERS AND WENDY ZOLLER OF
